Figma
Sketch
HTML/CSS3
Adobe Illustrator

UX Method

Surveys
Persona Building
User Stories
User Flows
Sketching
Wireframing
Prototyping
Usability Testing

Design

Branding
Color Palettes
Typography
Logo Design

Projects

TuneCan - [Invision Prototype](#)

Music creators often struggle with the storage of their musical components. They can have thousands of sound bytes that get lost in endless folders on their computer. TuneCan was created to help solve that problem.

Bluser - [Figma Prototype](#)

People are getting tired of social media and the constant feeling that their self worth is correlated to the amount of likes they get on a photo. Bluser is social media reimaged as a game between small groups of friends that helps promote conversation and build relationships.

Experience

Senior Biotech Production Specialist I

Sep 2015 - Present

Regeneron Pharmaceuticals

Lead a team of 10 people to commission a new clinical suite that was new to the industry. This suite brought the process of HTST (High Temperature Short Time) to all of Regeneron fundamentally changing the way media and feeds are made. Worked with Engineering and Automation to implement and qualify the equipment for use in manufacturing. Lead the continuous improvement initiative to improve the workflows of my team by designing new pH tables, writing and revising SOPs, and suggesting and implementing automation changes.

Product Design

Sep 2019 - Jun 2020

Bloc

Learned industry best practices and design process standards with a focus on UX Research, Visual Design, and Front-end development. Created and deployed projects while learning new tools and frameworks by collaborating several hours every week with a senior product designer.

EDUCATION

State University of New York at Oneonta

Aug 2010 - May 2014

BS in Biology with a minor in Chemistry
